

On the propoasal to have radio stations to record all of the programing for up to 90 days. I don't feel it is a good idea. We are now in the process of starting up a LP-FM Station. Our programing will come over a satalite. We will not have the equiptment neccasary to record all of the programing. Money wise we can't afford it and personal wise we can't handle it also. If the law is passed, maybe there could be an eception for non-profit LP-FM Stations. We are also a non-funded station. With no money coming in.Thank you
